“Amazing things happen to you like I was just walking around and this woman comes up to me and says ‘would you like a song’ and I said ‘I’d love a song’ thinking that she was just going to sing to me. She immediately calls over about 15 other people, they surround me in a circle and sing me the most beautiful song – just to me you have ever heard! So I had tears rolling down my cheeks – and that to me summed up the whole Glastonbury thing!”
